TONGE MOOR
PRIMARY ACADEMY

Financial Education Vision

We believe that financial capability is an important life skill, therefore it is crucial that our young people are equipped with the knowledge, ability and confidence to manage their money. The long-term goal is to provide our pupils with a clear understanding of the importance of financial planning and the role of money in their daily lives. This links in with the philosophy of developing our pupils' independence and being lifelong learners. We believe that all young people a should be given the best chance to understand and assess the risks and emotions associated with their finances and the impact their decisions will have on their lives.

Since being accredited as a Centre of Excellence three years ago financial education has become firmly embedded within our curriculum and wider personal development provision. Through long-term curriculum planning, enrichment opportunities, careers engagement, ongoing staff CPD, and pupil voice, we have sustained and strengthened our offer to our pupils and will continue to do this in the coming years.
